

On Sunday, October 20, GRTC will improve service for five routes and two microtransit service areas. These changes include:

## **Fixed Route Changes**

### **Major extension of GRTC Route 1 to serve Virginia Center Commons**

This extension will provide service every 30 minutes (60 minutes evenings and Sundays) from Downtown Richmond to Virginia Center Commons via Reynolds Community College. Northbound Reynolds trips will now continue all the way to VCC. Azalea service remains every 15 minutes.

### **High-Frequency service to Church Hill & Richmond International Airport**

Routes 7A & 7B will improve to every 30 minutes each, providing high-frequency corridor service from Downtown to Nine Mile & Laburnum and to Richmond International Airport. Trips have been timed to leave every 15 minutes in both directions, providing the same great service heading to and from the airport

### **Midlothian/Hull St evening service increase**

Route 1A will improve to 30-minute service evenings Monday-Saturday, improving service reliability along the Midlothian Corridor.

### **Other Changes:**

One daily WB trip added to Route 91 Laburnum Connector (leaving Gay and Millers lane at 5:55 am)

Schedule tweaks to 1A/B/C and 2A/B/C to improve DTS performance. These changes will not impact route or service frequency.

## **Microtransit Service Changes**

### **Azalea Zone**

Service added on Saturday from 8 am to 8 pm

### **Ashland Zone**

Expansion south to Virginia Center Commons. Transfer between LINK and Route 1 Chamberlayne/Downtown

## **Public Meetings and Pulse Projects**

Did you miss the [North-South](#) or [Western Extension](#) Pulse public meetings earlier this month? We still want to hear from you! Check the linked pages for links to project information and to give your feedback.

Are you interested in learning more about upcoming service changes? Join GRTC Planning Staff on Monday, Oct. 7, from 5-7 at the Richmond Public Library Main Branch.
