<b>OSHA</b>	Occupational Safety and Health Administration
<b>OTP</b>	On-Time Performance
<b>PlanRVA</b>	Regional convener, planning agency and provider of essential services to the localities of the Richmond Region: Town of Ashland, Charles City County, Chesterfield County, Goochland County, Hanover County, Henrico County, New Kent County, Powhatan County, and City of Richmond.

# INTRODUCTION

From record ridership to expanded service options and continued investment in one of the nation’s most impactful Open Access transit programs, the Greater Richmond Transit Company (GRTC) delivered a strong and defining FY2026. Guided by its mission to connect people to opportunities by providing safe, sustainable, and equitable transportation, GRTC remained focused on meeting growing demand, advancing critical infrastructure, and strengthening the reliability of service riders depend on every day.

Ridership remains one of GRTC’s greatest strengths. In FY2026, the system saw around 12 million passenger trips, reflecting sustained growth and the continued success of Zero Fare transit. Beyond ridership, GRTC’s impact extends across the region connecting people to more than 230,000 jobs, supporting over 44 million passenger miles traveled, and contributing to meaningful reductions in greenhouse gas emissions. These outcomes underscore the essential role transit plays in supporting economic mobility, workforce access, and environmental sustainability.

FY2026 also marked continued evolution in service delivery. The launch of the Broad Rock LINK microtransit zone expanded flexible, on-demand transit options in South Richmond, building on the success of existing LINK zones. At the same time, GRTC implemented a reliability-focused approach to service, making strategic adjustments to ensure that scheduled trips are trips riders can depend on.

On the capital side, FY2026 brought meaningful progress across GRTC’s major initiatives. GRTC secured \$27 million in funding through the Central Virginia Transportation Authority to advance three priority projects: the Pulse Bus Rapid Transit Western Extension, the North South Pulse corridor, and the Downtown Transfer Hub. The Western Extension moved closer toward implementation, including plans for 13 new stations extending service further into Henrico County. Early investments also supported continued development of the North South Pulse corridor, including dedicated lane planning and corridor improvements along Belt Boulevard. In Downtown Richmond, GRTC advanced the next phase of the Downtown Transfer Hub project, moving forward with procurement for a permanent, modern transit center that will anchor the system and support future growth.

GRTC also continued to expand its Essential Transit Infrastructure (ETI) program, increasing the number of shelters, benches, and ADA-accessible boarding areas across the network.

As GRTC looks ahead, the focus remains clear. The agency will continue advancing its major capital projects, strengthening service reliability, and expanding essential infrastructure across the system. At the same time, sustaining Open Access transit will remain a top priority, with continued work alongside regional partners and stakeholders.

Entering FY2027, GRTC is well-positioned to build on this momentum delivering a system that is reliable, accessible, and ready to support the continued growth of the Richmond region.

## OPERATING BUDGET

### OPERATING REVENUE BY SOURCE

GRTC's projected operating revenues for FY2027 reflect a decrease of \$6.4 million (-6%) compared to FY2026. This decline is primarily driven by the unavailability of CMAQ funding, a reduction in FTA Section 5307 Flex funding, and decreased grant-funded consulting services. These reductions are partially offset by continued growth in CVTA revenues, statutory CPI-U adjustments to local government contributions, and ongoing support from the Virginia Department of Rail and Public Transportation (DRPT).

	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted

### OPERATING CONTRIBUTIONS

#### **Central Virginia Transportation Authority (CVTA)**

##### Maintenance of Service - \$31,158,107

Established by the Virginia General Assembly in 2020, the CVTA administers regional transportation funding supported by dedicated sales and fuel tax revenues. GRTC receives an allocation of approximately 15% of total CVTA revenues, which is primarily used to sustain existing service levels. The enabling legislation also revised the local funding framework, allowing participating localities to reduce General Fund contributions to 50% of FY2020 levels, with required annual adjustments based on the CPI-U.

##### Capital/Project - \$1,331,396

Represents local matching funds required for capital and operating grant-funded projects.

**Virginia DRPT - \$20,925,789**

DRPT funds a portion of eligible operating expenses for public transportation providers through a performance-based operating assistance program. Under this program, transit agencies may receive funding of up to 30% of eligible operating costs.

**General Contribution**

**City of Richmond - \$9,574,329**

**County of Henrico - 4,597,738**

**County of Chesterfield - \$275,763**

GRTC receives annual general fund support from these three jurisdictions. Consistent with state statute, baseline funding reflects a 50% reduction from FY2020 budgeted contribution levels, with required annual increases tied to CPI-U pursuant to Code of Virginia § 33.2-3712.

**Special Projects**

**Chesterfield County - \$1,950,000**

Funding reflects Chesterfield County's contribution to the Route 1A service extension to Walmart Way. Chesterfield is currently in Year 2 of the Regional Transit Ridership Incentive Program (TRIP) grant administered by DRPT, which provides operating support for this service. Under the grant structure, DRPT funds 60% of the service costs, with Chesterfield County providing the remaining 40% local match.

**City of Richmond - \$2,447,868**

Funding represents the City's local match to state funding through the Central Virginia Transportation Authority (CVTA) Regional 35% Program (Rounds 3 and 5). These funds support advancement of the North/South Bus Rapid Transit (BRT) project and the Transfer Hub.

**Henrico County - \$728,097**

Funding reflects Henrico County's local match to state funding through the CVTA Regional 35% Program (Rounds 3 and 5). These funds support advancement of the BRT Western Extension.

**FTA 5307 - \$10,983,518**

The Urbanized Area Formula Funding Program (49 U.S.C. § 5307) provides federal funding to urbanized areas for transit capital investments, operating assistance, and transportation-related planning. In urbanized areas with populations of 200,000 or more, funds are apportioned directly to a locally designated recipient that applies for and receives the federal funds. Eligible uses include capital investments and studies, crime prevention, mobility management, preventive maintenance, and certain Americans with Disabilities Act (ADA) complementary paratransit services. The federal share for capital expenditures may not exceed 80% of the net project cost. Preventive maintenance and ADA paratransit costs are included in the operating budget.

**Federal COVID Relief - \$1,500,195**

Funds received under the American Rescue Plan Act (ARPA) support COVID-19 recovery efforts, with budgeted allocations applied to eligible operating expenses in accordance with program requirements.

**Grant Reimbursed Expenses \$19,997,725**

Of the total reimbursed expenses, \$11,398,692 is anticipated to be funded through State grants and \$1,588,240 through Federal grants. The remaining balance is supported by a combination of FTA Section 5307 flex funding, Federal COVID relief funds, CVTA, and contributions from the three jurisdictions for special projects.

Grants	Federal (\$)	State (\$)	Local/CVTA (\$)	Total (\$)
DRPT Line Extensions Route 1, 7a/7b & 19	827,640	6,239,248	-	7,066,888

<b>Total:</b>	<b>4,803,220</b>	<b>14,685,937</b>	<b>508,568</b>	<b>19,997,725</b>

**OPERATING REVENUE**

**Community Partners/ Advertising** - \$1,000,000 revenues include sponsorship of the Pulse BRT, bus wraps, and other advertising opportunities offered to businesses. TAP also provides a mechanism for individuals and organizations to make tax-deductible contributions through RideFinders.

**OTHER INCOME**

**City of Petersburg** - \$200,000 revenues reflect operating subsidies provided by the City of Petersburg to support GRTC’s 95x express route, which provides service between Richmond and Petersburg.

**Other Sources** - \$1,138,000 consist of interest income earned on investments, revenues associated with leased employees supporting RideFinders, and charter-related revenues.

**GRTC Appropriation** - \$1,929,946 reflects the net surplus or deficit generated from operating revenues compared to operating expenses within the current operating cycle.

**OPERATING EXPENSES**

Projected baseline operating expenses for FY2027 are expected to increase by \$0.9 million (+0.95%) compared to FY2026. This increase is primarily driven by higher wages and benefits, increased paratransit service costs, and growth in uninsured liabilities. These increases are partially offset by reductions in vehicle parts and maintenance, materials and supplies, departmental cost reductions, and decreases in Marketing and Information Technology (IT) expenses.

## BASELINE OPERATING EXPENSE OUTLOOK

**Wages and Benefits** (+\$1.1 million, +1.68%) - driven by anticipated increases in collective bargaining agreement rates and cost-of-living adjustments for administrative employees.

**Paratransit Services** (+\$1.0 million, +11%) - driven by projected demand growth and higher purchased transportation costs.

**Other Cost Changes:** increases in fuel, insurance, and utilities are partially offset by decreases in vehicle parts and maintenance, as well as materials and supplies.

**Uninsured Liabilities** (+\$250 thousand): the self-insured reserve is projected to increase from \$750 thousand in FY2026, despite FY2026 full-year estimates of approximately \$2 million, which were driven by two outlier pedestrian accident claims.

## DEPARTMENTAL IMPACT SUMMARY

**Operations:** +\$1.3 million (+3.02%), primarily due to higher Paratransit service costs.

**Benefits:** +\$641 thousand (+3.88%), reflecting increased headcount and renewal costs for GRTC's Open Access Plan and Consumer-Driven Wellness Plan.

**Insurance and Safety:** projected to remain relatively flat, as higher uninsured liability provisions are offset by delayed hiring of vacant positions later in the year and lower miscellaneous costs.

**Administrative:** +\$274 thousand (+6%), reflecting the reclassification of certain positions previously budgeted in Planning, IT, Marketing, and Operations.

These increases are partially offset by \$1.4 million in departmental reductions and decreases in Marketing and IT costs.

## FY2027 BUDGETED STAFF SUMMARY

## EXECUTIVE

The Executive Department comprises GRTC’s core leadership team and is responsible for the overall management, leadership, and strategic direction of the organization. It oversees the implementation of policies, goals, and objectives established by the Board of Directors and ensures the effective delivery of services to customers. The department also leads external affairs, government relations, and legislative activities. Beginning in FY2027, Government and External Affairs and the Performance Management Office will be established as separate subdivisions.

## EXPENSES — EXECUTIVE OFFICE

Executive Office	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted

<b>Total Operating Expenses</b>	<b>2,097,561</b>	<b>2,270,148</b>	<b>2,427,049</b>	<b>3,403,694</b>

### Wages & Benefits

Salaries and Wages proposed have increased overall to reflect cost-of-living and market-based adjustments across various positions. The increase also incorporates the establishment of the Performance Management Office and Government and External Affairs subdivisions, as well as the addition of the Grant Coordinator.

### Services

Consulting fees are projected to decrease based on anticipated lower service requirements, while Legal Services expenses are expected to increase due to higher reliance on outside counsel compared to the prior year’s budget.

### Miscellaneous

Membership Dues, Meetings, and Events encompass participation in key industry and professional associations, including VTA, APTA, and ABBG, along with costs to support public meetings. Employee Appreciation expenses are intended to recognize and reward employee dedication and public service. These expenditures are budgeted lower compared to FY2026.

## FINANCE

The Finance Department is responsible for managing the agency’s financial operations, including accounting and financial reporting; development and oversight of operating budgets; short- and long-term financial planning; cash management; financial compliance reporting; payroll administration; and monitoring the allocation and receipt of funding for operating and capital needs.

### EXPENSES — FINANCE

Finance & Accounting	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted
Wages & Benefits

#### Wages & Benefits

Salaries and Wages proposed for the upcoming fiscal year reflect increases driven by cost-of-living and market adjustments for both filled and vacant positions. The FP&A Grant Administrator and Payroll Clerk positions are no longer included in the FY2027 budget (-2 FTE). Additionally, three ERP Support positions, funded through grants, are proposed to support the ERP implementation.

**Travel & Training** expenses have increased because of technological updates and system changes within the Finance function, as well as ongoing investments in enhancing staff technical capabilities.

**Services, Materials & Supplies and Miscellaneous** expenses have increased slightly due to audit-related costs.

## HUMAN RESOURCES

The Human Resources Department is committed to fostering a high-performing, engaged workforce in support of GRTC's mission. The department oversees performance management to drive positive employee outcomes and administers classification and compensation programs to ensure a competitive total rewards package. The HR team emphasizes a service-oriented culture that puts employees first.

## EXPENSES — HUMAN RESOURCES

### Wages & Benefits

The proposed Salaries and Wages for the upcoming fiscal year incorporate cost-of-living and market-based adjustments for both current and vacant positions.

## Services

Employment Services expenses relate to recruitment activities and include costs for job advertising, new hire onboarding, and pre-employment medical examinations. Consulting Services represent third-party expenses supporting employee benefit programs, such as medical broker services. GRTC Training Program expenses cover corporate-wide training initiatives for employees.

## INFORMATION SYSTEMS

The Department of Information Systems (IS) at GRTC manages all technology functions, including fleet management systems, bus stops and stations, real-time passenger information, and administrative systems. Reliable operation of these technologies is critical to ensuring safe and efficient service. The IS team also supports effective communication across the organization and continuously pursues innovative solutions to improve both internal processes and customer-facing services.

## EXPENSES — INFORMATION SYSTEMS

Information Technology	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted
Wages & Benefits				
Salaries & Wages	780,374	998,031	1,059,635	903,092

<b>Total Operating Expenses</b>	<b>2,787,330</b>	<b>3,393,020</b>	<b>3,886,198</b>	<b>3,759,706</b>

## Wages & Benefits

The proposed Salaries and Wages for the upcoming fiscal year include cost-of-living and market-based adjustments for current and vacant positions, while reflecting a net decrease resulting from the transition of the Senior IS Project Manager position to the PMO team.

**Services and Materials & Supplies** expenses reflect annual maintenance and support costs for enterprise software platforms such as Great Plains, Hastus, Clever Devices, and Microsoft, along with vehicle technology and telecommunications services. Funding for most of these expenses is provided through federal and state grants.

## VEHICLE MAINTENANCE

The Maintenance Department manages the upkeep, repair, service, and availability of GRTC's fleet. Preventive maintenance initiatives help extend vehicle life, reduce road calls, and support consistent service delivery. Most maintenance and repairs are performed internally by specially trained mechanics, including engine rebuilding and body and paint work, resulting in operational efficiencies and reduced outsourcing costs.

## EXPENSES — VEHICLE MAINTENANCE

Maintenance	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted
Wages & Benefits				
Salaries & Wages	4,641,515	5,343,217	5,957,119	5,153,608

**Wages & Benefits**

While FY2027 reflects higher wage rates driven by collective bargaining and cost-of-living adjustments, overall salaries and wages are projected to decrease due to workforce redistribution, including increased use of part-time employees and trainees, partially offset by the addition of a specialized Body Shop Mechanic position.

**Fuels & Lubricants** are critical to maintaining reliable fleet operations. More than 90% of GRTC’s fixed-route fleet operates on Compressed Natural Gas (CNG), with funding in place to convert the remaining vehicles over the next several years. Most specialized transportation vehicles also utilize CNG. The increase over the FY2026 adopted budget reflects projected increases in fuel and CNG prices.

**Vehicle Maintenance** expenses encompass several categories: fleet repairs and parts (\$4.1M), tires (\$0.88M), supplies (\$0.3M), and shop supplies, tools, and other maintenance support items.

## FACILITIES MAINTENANCE & CAPITAL CONSTRUCTION

The Facilities Maintenance Division is responsible for ensuring that GRTC facilities and customer amenities at stops are safe, clean, and well maintained. In prior years, this function operated within the General Maintenance Division; beginning in FY2027, it will be budgeted as a separate division.

The Capital Construction team oversees the planning, design, and delivery of major infrastructure projects - including transit centers, bus stop improvements, and facility upgrades - that enhance and support GRTC's service network.

## EXPENSES — FACILITIES MAINTENANCE & CAPITAL CONSTRUCTION

Facility Improvement & Capital Construction	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted
Wages & Benefits

### Wages & Benefits

Salaries and wages are projected to increase in FY2027, reflecting higher rates under collective bargaining agreements and cost-of-living adjustments for administrative staff. This increase also includes the addition of Facility Custodian positions (Supervisor, Team Lead, and Custodian). Positions were transferred from the Planning Department to the Capital Construction Department as part of the FY2027 budget.

**Utilities, Facilities, and BRT maintenance** expenses reflect increases in utility prices and the ongoing costs associated with maintaining facilities and related assets.

## MARKETING & COMMUNICATIONS

The Marketing & Communications Department supports both internal and external communications by delivering critical information to riders and non-riders alike. The department promotes GRTC and its services, provides high-quality customer service, develops and produces marketing materials, and protects the organization's brand integrity.

## EXPENSES — MARKETING & COMMUNICATIONS

Marketing	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted

### Wages & Benefits

The proposed Salaries & Wages for the upcoming fiscal year indicate a modest overall decrease, primarily attributable to the elimination of the Marketing Intern position and include cost-of-living and market-based adjustments for existing and vacant roles.

### Services

Advertising & Promotion expenses encompass a range of activities, including route extension campaigns, community engagement initiatives, sponsorships, and third-party marketing services.

## CUSTOMER SERVICE

The Customer Service division oversees GRTC’s call center operations. Customer Service Representatives (CSRs) have in-depth knowledge of route schedules, service changes, and system impacts, enabling them to effectively support riders via phone or chat. CSRs are essential to daily operations, as clear and timely communication with riders helps ensure reliable and efficient service delivery.

## EXPENSES — CUSTOMER SERVICE

## PLANNING & SCHEDULING

The Planning & Scheduling Department manages both short-term and long-term service planning for GRTC riders. The team works closely with the Union to develop, adjust, and implement booking and schedule changes as needed. These schedules are critical to Operators and are routinely reviewed to identify opportunities to improve service quality and reliability. Department responsibilities also include bus stop modifications, new route development, and analysis of service area demographics to ensure Title VI compliance. Beginning in FY2027, Capital Construction will be established as a separate department.

## EXPENSES — PLANNING & SCHEDULING

Planning & Scheduling	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted

## PROCUREMENT

The Procurement Department is responsible for acquiring the goods and services required to support GRTC's operations and customer service delivery. As a publicly funded organization, GRTC follows applicable federal and state procurement regulations to promote open competition and provide vendors with equitable access to contracting opportunities. The Procurement Department oversees these processes to ensure transparency, integrity, and the fair selection of qualified vendors and contractors.

### EXPENSES — PROCUREMENT

Procurement	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted
Wages & Benefits				
Salaries & Wages	521,519	618,903	632,892	611,381

## RIDEFINDERS (INCLUDING VANPOOL PURCHASED SERVICES)

RideFinders is a regional nonprofit organization focused on ridesharing and transportation demand management (TDM) in Central Virginia. Its mission is to reduce the number of vehicles on the roadway to protect and improve air quality. By promoting more efficient use of the region’s transportation infrastructure, RideFinders contributes to improved air quality, enhanced quality of life, and a strong regional economy. The budget items presented below reflect employee and Vanpool operational expenses only, as RideFinders leases employees and procures vanpool through GRTC. As an affiliated agency, RideFinders receives separate grants reflected on a separate RideFinders budget.

### EXPENSES — RIDEFINDERS

Ridefinders	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted
Wages & Benefits				
Salaries & Wages	367,027	378,313	361,533	333,612
FICA & Unemployment	28,078	29,352	27,987	25,521
HealthCare	78,332	82,650	86,091	61,289

Enterprise Vanpool Services	343,020	343,020	273,020	157,000
Ride EZ Vanpool Services	60,000	60,000	130,000	157,000
New vendors				137,020
<b>Total Operating Expenses</b>	<b>1,069,489</b>	<b>1,087,384</b>	<b>1,076,129</b>	<b>1,015,147</b>

#### Wages & Benefits

Proposed salaries and wages reflect cost-of-living and market-based adjustments for existing positions and account for replacing one professional staff position with an intern.

**Purchased Services** represent costs associated with contracted vendors that provide vanpool services. Variations in expenditures are driven primarily by changes in service demand. Demand for vanpool services declined significantly during the COVID-19 pandemic as many users transitioned to remote work. Fiscal Years 2024 through 2026 reflect a return to more typical operating levels and demand patterns.

### RIDEFINDERS STAFF SUMMARY & AUTHORIZED POSITIONS

## SAFETY & SECURITY

The Safety & Security Department is responsible for overseeing the company’s risk control functions, including insurance, safety, and training. GRTC proactively identifies and addresses potential safety risks to support the delivery of safe and reliable service for customers. These efforts are supported through comprehensive training for new hires and ongoing refresher training for experienced operators.

### EXPENSES — SAFETY & SECURITY

Insurance and safety	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted
Wages & Benefits				
Salaries & Wages	707,014	724,096	1,110,952	973,312

<b>Total Operating Expenses</b>	<b>3,372,769</b>	<b>3,717,996</b>	<b>6,009,785</b>	<b>6,044,315</b>

#### Wages & Benefits

Proposed salaries and wages incorporate cost-of-living and market-based adjustments for current positions and include funding for one vacancy anticipated to be filled in the latter portion of the fiscal year.

#### Casualty & Insurance

Workers’ Compensation Insurance expense represents the premium for a fully insured policy. Renewal costs are influenced by prevailing insurance market conditions as well as GRTC’s historical claims experience.

Bus and General Liability Insurance expense for FY 2027 reflects GRTC’s continued participation in the Virginia Transit Liability Pool, which provides coverage for general liability, automobile liability, umbrella liability, and excess liability.

The Provision for Uninsured represents a self-insured reserve established to cover property damage and bodily injury claims that fall below applicable retention levels.

Premium – Other Miscellaneous expenses include commercially placed insurance policies covering risks such as property, cyber liability, fiduciary liability, professional liability, crime, assault, and machinery.

**Services** include the contract with Allied Universal Security for the provision of Public Safety Officers at GRTC facilities, on buses, and at designated high-risk locations.

## SAFETY & SECURITY STAFF SUMMARY & AUTHORIZED POSITIONS

## TRANSPORTATION

The Transportation Department is responsible for the delivery of GRTC's fixed-route bus services and operation of the Bus Rapid Transit system, Pulse. These services form the core of GRTC's transit operations, providing reliable mobility across the service area. The department focuses on safe, efficient, and customer-oriented service delivery.

## EXPENSES — TRANSPORTATION

Transportation	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted
Wages & Benefits				
Salaries & Wages	23,442,850	27,807,951	29,406,533	29,717,288
FICA & Unemployment	1,793,378	2,157,549	2,276,460	2,293,876
HealthCare	5,621,457	6,266,173	6,596,480	6,141,929
Retirement Benefits	3,158,693	3,937,584	4,188,333	4,390,558
Allowance	162,000	191,500	364,845	303,000
Travel and Training	76,416	66,438	38,650	29,509

<b>Total Operating Expenses</b>	<b>34,622,914</b>	<b>40,778,196</b>	<b>43,399,302</b>	<b>43,081,162</b>

### Wages & Benefits

Salaries and wages are projected to increase modestly in FY2027 due to higher rates under collective bargaining agreements and cost-of-living adjustments for administrative staff. These increases are partially offset by a reduction in full-time equivalents (FTEs), reflecting fewer supervisory positions, while maintaining the same number of bus operators as in the prior fiscal year.

Allowance refers to expenses associated with providing operators clothing and shoes as defined in the collective bargaining unit agreement.

**Utilities** refer to utility expenses specific to the transportation facilities and tolls.

## TRANSPORTATION STAFF & AUTHORIZED POSITIONS

## TRANSPORTATION - MOBILITY

GRTC's **LINK Microtransit** is an on-demand public transit service that provides trips to passengers in specific areas that are not as suitable for fixed-route service. By offering a flexible and convenient transportation option, LINK bridges the gap for residents who lack reliable access to bus routes.

This new mode of service has improved mobility for Richmond region residents, enhanced access to essential services and economic opportunities, and expanded the footprint of GRTC in the region.

**Paratransit services:** GRTC employees oversee and operate fixed route services, including Pulse BRT, express, and local bus routes. The paratransit division (CARE) is managed and operated on-site by a contractor using GRTC vehicles. CARE On-Demand service is managed and provided by the contractor UZURV.

## EXPENSES — MOBILITY: MicroTransit, CARE, CARE On-Demand, and Service On-Demand

MicroTransit	Budget (\$)			
	FY2024 Adopted	FY2025 Adopted	FY2026 Adopted	FY2027 Adopted

**Wages & Benefits**

Salaries and wages are projected to increase in FY 2027 reflecting higher labor rates under existing collective bargaining agreements and cost-of-living adjustments for administrative staff. In addition, the proposed budget includes two new part-time bus operator positions and one Lead Mobility Supervisor.

Allowance refers to expenses associated with providing operators clothing and shoes as defined in the collective bargaining unit agreement.

**CARE, CARE On-Demand, and Service On-Demand** refers to expenses with contracted vendors providing paratransit transportation in accordance with FTA guidelines.

**MICROTRANSIT STAFF & AUTHORIZED POSITIONS**

## STATE OPERATING & CAPITAL GRANTS

GRTC's FY2027 Capital Budget reflects a disciplined, multi-year investment strategy designed to sustain safe, reliable, and equitable transit service while advancing system modernization. This Budget Book focuses specifically on capital projects requiring funding commitments and grant approvals in FY2027, positioning the agency to respond to both immediate infrastructure needs and long-term regional growth.

## CAPITAL PLANNING PROCESS

The capital planning process is grounded in fiscal stewardship and strategic leverage of federal, state, and local resources. GRTC prioritizes investments that preserve core assets, improve service delivery, and expand access for transit-dependent populations. Key Projects anticipated in FY2027 include fleet replacement and electrification, facility upgrades, passenger amenities, and technology enhancements that support operational efficiency and customer experience. Projects identified by staff, riders, and regional partners as capital needs are categorized into one of the following prioritized areas:

1. Safety / Regulatory / Training
2. Committed Projects
3. Transfer of Federal Capital Funds to Operational Preventative Maintenance and ADA
4. State of Good Repair (SGR)
5. Business Improvements
6. Service Improvements
7. Infrastructure/Facility Improvement
8. Service Expansion

The agency aligns available capital funding with anticipated discretionary and formula grants within a multi-year framework. Additionally, we strategically flex federal capital funds to support preventive maintenance and ADA services, reducing operational resources. Remaining capital funds are paired with state-matched opportunities to optimize leverage and minimize reliance on local funding.

These categorized projects are recommended for funding within each year's constrained plan based on staff availability, project readiness, and partner support for implementation. Projects that meet these criteria are ranked based on how essential that are for GRTC and the region:

- to maintain transit assets in a state of good repair.
- to provide mobility improvements to the existing service for staff and riders.
- to reflect and advance the connectivity initiatives adopted by local funding partners.
- to advance emerging trends and technologies that improve the efficiency and effectiveness of transit within the regional transportation network.

The FY2027 grant are organized by grant type, with each type carrying a defined funding structure established by DRPT program guidance. Workforce Development grants are funded with up to 80 percent state assistance and a 20 percent local match, supporting internships, training, and workforce pipeline investments. Technical Assistance grants support planning, analysis, and pre-development activities and follow a balanced structure of approximately 46 percent federal, 50 percent state, and a minimum 4 percent local match, reflecting DRPT requirements that planning efforts leverage federal funds while maintaining local participation.

Demonstration and Capital grants—including State of Good Repair, Minor Enhancements, Major Expansions, and service development—are funded through a combination of federal assistance (approximately 28 percent) and state participation (up to 68 percent), with the remaining share provided through local and regional sources, including CVTA where applicable. Certain grant types do not include state funds and are supported through federal, local, or regional contributions as required.

Together, these funding splits explain how the FY2027 program balances federal leverage, state investment, and local commitment across the portfolio and ensure that each dollar advances the mission of GRTC – to deliver high quality transit service while strengthening regional mobility, economic opportunity, and long-term sustainability.

## **FY2027 STATE OPERATING & CAPITAL GRANTS**

### **SAFETY/REGULATORY**

#### **Broad Street Safety Enhancements BRT (Median Stations) - \$250,000**

GRTC would like to assess median BRT stations and identify any opportunities for safety and security improvements. This will include looking at peer agencies and how they design station enhancements to achieve these goals. The study should also identify community, and economic development opportunities to improve safety and security.

#### **Public Safety Officers - \$964,000**

This project is instrumental in continuing to provide safety and security for transit passengers and employees. Public Safety Officers will continue providing immediate response to security incidents and emergencies, as well as preventing criminal activities that negatively impact transit. This project is expected to continue over a 5-year contract period, with incurred costs of approximately \$964,000 per year, and will result in continued enhancement of the overall passenger experience by contributing to public safety.

#### **Security Technology Improvement - Facility Maintenance - Camera Improvements & Replacement (Headquarters, RideFinders) - \$350,000**

The project aims to modernize and enhance the building's technology infrastructure by replacing outdated cameras and upgrading communication hardware systems. This initiative will ensure improved security, reliability, and scalability to support current and future operational needs.

### **STATE OF GOOD REPAIR**

#### **Asphalt Repairs at Temporary Downtown Transfer Station – \$252,186**

The asphalt at GRTC's Temporary Downtown Transfer Center has been damaged by the frequent stopping and starting motions of buses pulling into and leaving the bays, causing rutting that has become a tripping hazard for riders. Repaving will provide a smooth surface for GRTC vehicles and a safer walking environment for people using the transfer center.

#### **Bus Replacement (Fixed Route) (Amendment) - \$6,097,968**

GRTC seeks to replace a total of Twenty-Two (22) 29-foot CNG buses will reach their useful life in 2027 and are eligible for replacement. These buses will be replaced by larger 35-foot buses with increased seating capacity and versatility to be used on other routes in the system. This is an amendment to Grant 73026-79.

#### **Bus Replacement (Fixed Route) - \$8,948,580**

GRTC seeks to replace a total of Ten (10) 29-foot CNG buses will reach their useful life in 2027 and are eligible for replacement. These buses will be replaced by larger 35-foot buses with increased seating capacity and versatility to be used on other routes in the system.

**Bus Replacement (Paratransit) - \$2,535,000**

Thirteen (13) CNG paratransit vans have reached their useful life in 2026 and are eligible for replacement to continue providing safe and reliable service to the paratransit community. Ridership on paratransit over the past two years has significantly increased and reliable vehicles are paramount to sustain this growth. Thirteen (13) vans are eligible for replacement in 2027, total need is 24 vans.

**Elevator Replacement - \$1,342,000**

Demolition and replacement of both elevator cars and machinery. Installed in 2009, GRTC's elevators incorporate a challenging design that has contributed to maintenance difficulties throughout its useful life. GRTC's elevator contractor recommends replacement as the equipment nears the end of its useful life.

**Server Room HVAC System & Chiller Replacement - \$802,404**

Originally installed in 2013, this equipment provides critical cooling for GRTC's primary server room. Nearing the end of its useful life, this equipment is in need of like-for-like replacement. This project will utilize existing piping and electrical supply, greatly reducing the potential replacement cost. The chiller is the primary means of cooling for the entire GRTC facility. Installed in 2009, it is nearing the end of its useful life, and GRTC's mechanical contractor advises that it needs replacement as soon as possible. Replacing the chiller will allow GRTC to maintain indoor air temperatures at optimal levels, and may contribute to lower electrical usage.

**Support Vehicle (Gator Utility Vehicle) (3) - \$76,362**

This project funds the replacement of two (2) John Deere Gators that have reached or exceeded their useful life expectancy and are no longer cost-effective or reliable for daily operational use. GRTC would like to also purchase an (1) additional Gator (expansion). These utility vehicles support essential activities on GRTC property, including grounds maintenance, facility support, and operational logistics.

**Replacement Support Vehicle (Tractor) (1) - \$84,725**

This project funds the replacement of 1 pushback tractor that has reached or exceeded its useful life and is no longer cost-effective or reliable for daily operations. This vehicle supports essential activities on GRTC property, including ground maintenance, facility support, and operational logistics.

**Support Vehicles (1 Microtransit SUV) - \$49,525**

One (1) additional SUV is required for Microtransit road supervision. This project funds the acquisition of the SUV that has met its useful life. The replacement of this vehicle will enhance GRTC's ability to support transit operations and systemwide service reliability.

**Support Vehicles (5 Shuttle Vans) \$516,485**

This project funds the acquisition of 5 new support vehicles to expand GRTC's operational fleet. These vehicles are an addition, not a replacement, and will enhance GRTC's ability to support transit operations, field supervision, maintenance response, and systemwide service reliability.

**Support Vehicles (8 SUVs) \$396,202**

This project funds the acquisition of eight (8) new support vehicles to replace vehicles that have met their useful life. These vehicles are replacements and will enhance GRTC's ability to support transit operations and systemwide service reliability.

## BUSINESS IMPROVEMENT

### Annual IS Software Maintenance Contracts (Service) - \$1,151,196

IT Software Maintenance Contracts are agreements between GRTC and our vendors to ensure the ongoing support, updates, and functionality of agency software systems. These contracts are critical for maintaining operational continuity, security, and compliance. The scope of this project encompasses all activities required to establish, manage, and optimize IT software maintenance agreements to ensure system reliability, security, and compliance.

### Community & Corporate Relations Intern - \$31,600

This project will support the placement of one Community & Corporate Relations Intern within the Greater Richmond Transit Company (GRTC). The intern will work under the direction of the Community & Corporate Relations Manager to support outreach, fundraising, and community engagement initiatives that advance fair, free, and open access to GRTC transit services.

### Fleet Hardware Maintenance & Support (Cameras, DVRs, Destination Signs, CAD/AVL, Comms Equipment) - \$150,000

This project ensures the reliability, safety, and operational efficiency of the organization's transportation fleet by providing comprehensive maintenance and support for critical onboard hardware systems throughout the fiscal year. The initiative focuses on sustaining optimal performance of surveillance, communication, and operational technology to minimize downtime and enhance service delivery.

### IS Intern - Workforce Development - \$41,600

The IS Intern position is designed to attract, develop, and retain top talent by providing hands-on experience in Information Systems. The position aims to build a pipeline of skilled professionals who can contribute to the organization's technology initiatives while fostering innovation and knowledge transfer. This position will support the placement of one IS Department Intern within the Greater Richmond Transit Company (GRTC). The intern will work directly with the IS Director and IS Department to support IS team initiatives, cross departmental coordination, agency user support, report data collection, and organizational process improvements.

### Oracle Cloud ERP Modernization for Transit Operations, Asset Management, and Financial Systems - \$8,954,088.55

The primary goal of this project is to engage a proficient system integrator who will assist GRTC with the implementation of the Oracle Cloud solution. This partnership aims to ensure a smooth and effective integration tailored to GRTC's specific needs.

Oracle Cloud ERP Modernization	
FY2027 Spend	FY2028 – FY2029
\$4,477,044	\$4,477,044

### Service Performance Standards Study - \$150,000

GRTC seeks to develop a comprehensive Transit Standards and Performance Measures (TSPM) framework to guide service planning, evaluation, and investment decisions. As GRTC continues to expand its network through initiatives such as BRT, microtransit, and frequent local service, there is a growing need for a consistent, transparent, and performance-based decision-making framework that aligns with federal and state requirements, best practices, and local policy goals.

## SERVICE IMPROVEMENT

### **14th Dedicated Lanes - \$360,986**

0-30% Design for transit dedicated lanes along Pulse route on 14th Street between Broad and Main Streets. Current peak-period congestion has significant negative impacts on the Pulse's on-time performance. Adding dedicated lanes will increase on-time performance and in some cases will help ease overall congestion on this segment of 14th Street.

### **Origin & Destination Study (O&D) \$300,000**

GRTC operates a multimodal transit network comprising 32 local bus routes, 4 express routes, a BRT corridor (Pulse), and 6 microtransit zones. To ensure that service planning decisions are data-driven, equitable, and compliant with federal and state requirements, GRTC conducts a systemwide Origin-Destination (O-D) survey every three years. Undertaking an O-D allows GRTC to fully capture the current travel behavior, travel patterns, trip purposes, or demographic characteristics of its riders. Without updated O-D data, GRTC faces limitations in: Evaluating route productivity and connectivity, Identifying underserved markets and unmet travel needs, Assessing equity impacts of service changes, Supporting grant applications and long-range planning efforts, Informing microtransit zone design and integration with fixed-route service.

## SERVICE SUSTAINABILITY

### **Powhatan Microtransit Zone - \$340,000**

GRTC is seeking TRIP funding to support the continued operation and enhancement of its Powhatan Microtransit service, which provides flexible, demand-responsive mobility to residents in a rural area with limited transportation options. This service has already demonstrated strong community value by connecting Powhatan residents to essential destinations, including employment centers, medical facilities, educational institutions, and commercial services in both Powhatan County and the greater Richmond region. Continued investment in Powhatan Microtransit ensures that rural residents remain connected to the region's economic and social infrastructure. TRIP funding will allow GRTC to sustain this critical service, refine operations based on demand patterns, and maintain a high level of reliability and responsiveness for riders who depend on it.

### **Regional Public Transportation Prep - \$200,000**

The Central Virginia Transportation Authority (CVTA) requires regional transit planning to guide investment and service improvements. To meet this requirement, GRTC will lead technical analysis and planning efforts for the FY2027 and FY2028 Regional Transit Plans in coordination with regional partners. GRTC will work with all jurisdictions in the region to identify transit priorities in the short and long term.

### **Travel Training (5310) - \$75,000**

GRTC is requesting continued Section 5310 operating assistance to support its Travel Training Program. This program provides individualized travel training for seniors, individuals with disabilities, and eligible riders to use fixed-route transit independently, reducing paratransit reliance and improving system efficiency. The program is housed in the Executive Office to align outreach, accessibility, and customer engagement.

## **INFRASTRUCTURE/FACILITY IMPROVEMENT**

### **Comprehensive Facility Assessment & Redesign - \$193,327.74**

Staff requests grant funding to support a comprehensive facility assessment and redesign to accommodate current and future staffing needs, reflecting the agency's substantial growth over the past 15 years. The Consultant will be required to utilize previously selected finishes currently implemented within the buildings and propose new finishes for consideration, as appropriate. Coordinating meetings will be held with GRTC'S Capital Construction and Facility Improvement team to review draft plans and solicit feedback.

### **ETI Installation - \$1,927,001**

This phase of the ETI initiative will enable GRTC to complete more than 150 stop improvements systemwide. These projects improve accessibility, safety, and environmental quality by providing ADA-compliant boarding areas, reducing exposure to traffic and heat, and encouraging mode shift from personal vehicles to transit.

### **Predevelopment Services for 325 E. Belt Boulevard - \$1,449,212**

To accommodate its rapid growth in recent years, GRTC plans to construct a multi-use facility at 325 East Belt Boulevard, which would include a bus transfer station, administrative offices, employee parking, and bus storage. GRTC is seeking pre-development engineering and design services for this project. Consultant to perform Pre-Development Service/Conceptual Design services on the 3.99-acre site.

## **SERVICE EXPANSION**

### **Broad Rock Zone - \$877,560**

The Broad Rock Microtransit Zone was launched by GRTC in October 2025 to replace a prior limited fixed-route segment that could not reliably meet community needs due to low frequency, long walking distances, and poor connectivity to regional destinations. The Broad Rock Microtransit zone will continue offering vital and essential service to the region, with strategic expansion to nearby communities and developments to meet growing demand.

### **North -South Pulse (BRT) - 15-30% (Amendment) - \$2,270,652**

This request is for funding to move the project forward on the North-South BRT. Since the original award, GRTC has advanced the project and has identified a need for additional \$1,135,326 in state funding to strengthen the project's financial structure and reduce the reliance on local and CVTA regional sources This is an amendment to Grant 73124-10.

### **North-South BRT Engineering - \$4,400,000**

This request is for funding to complete engineering for the North-South BRT. The North-South BRT will meet several public needs, creating reliable, higher-frequency transit connections across the James River, improving transit reliability, accessibility, and connectivity, and expanding equitable access to goods and services.

**Western Pulse (BRT) Extension – Construction - \$2,275,302**

This project will provide extended, higher-frequency transit service along West Broad Street, where demand for transit continues to grow via partial construction funding for the Pulse Western Extension from Willow Lawn to Parham Road. Plan RVA's 2017 Transit Vision Plan recommended extending the Pulse based on projected ridership and the corridor's favorable characteristics for public transit. (Demand for transit service along W Broad Street is continuing to increase, and GRTC and Henrico County are working to meet it with a four-mile expansion of the existing Pulse west from Willow Lawn to Parham Road. This first extension of the Pulse will add eight new stations and additional dedicated lanes, expanding access to rapid transit deeper into Henrico County.
